### Updated Safeguarding Policy

We are updating the software we use to help us meet our safeguarding obligations. This software, called 'Securus' is installed on all compatible devices at school and helps us to monitor the use of ICT and help keep everything safe. This is one of the tools we use for online safety along with our specialist content filtering system, comprehensive e-safety curriculum and close supervision from staff while using ICT. As you will appreciate, no system is 100% effective, which is why we are using it as just part of our strategy alongside other methods to help ensure everyone using ICT at school is safe online.
