---

You may be aware of the increasing number of people with measles in Birmingham at the moment, it's a highly infectious disease and it is very important that everyone has had the MMR vaccine.

Signs to look out for are **cold-like symptoms, red/sore watery eyes, fever** and a **non-itchy rash** that appears 3-5 days later. We always prioritise the health of our school community, so we kindly remind you to **keep your child at home** and **contact your GP** if you suspect they have measles.
